The IALEHA Onsite Wastewater Treatment Conference will take place at the Bloomington-Normal Marriott Hotel and Conference Center in Normal, Illinois. For the past 37 years, environmental health and wastewater professionals have met to hear presentations, see demonstrations, visit with each other and swap stories.

The conference-planning committee set some goals for improving the conference, and the end result is an expansion of our already-impressive offerings. We hope to provide what wastewater professionals need to obtain or maintain their state licenses.

An outstanding group of speakers has been assembled to address a variety of topics relevant to environmental health and wastewater professionals from across the state of Illinois. Both regulators and contractors should come away from the conference better informed. Regulators, contractors and technicians can receive continuing education credits for attending the conference.

We will again offer licensing exams for private sewage contractors who pre-register with the Illinois Department of Public Health. We will offer a course and licensing exam for portable sanitation technicians, as well.

Come join us in Bloomington-Normal at the 38th Onsite Wastewater Treatment Conference, and rub and bend elbows with friends and fellows!

2019 Conference Planning Committee
